## LEAD-BASED PAINT DISCLOSURE FORM

## FOR DC REAL ESTATE SALES

Purpose: Inform potential homebuyers of the presence of lead-based paint and related hazards at this property.

This form is required for properties built before 1978. This form must be used in addition to the Federal Lead Disclosure form because the DC Law provides additional protections for the purchaser.

- Housing built before 1978 is presumed to contain lead-based paint.
- Lead from paint, paint chips, and dust may pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women.
- Lead poisoning in young children may produce permanent neurological damage, learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory.
- Lead poisoning poses a particular risk to developing fetuses and pregnant women. DC Law requires the buyer to have this information before they decide to rent or purchase the property.

#### Are you a POTENTIAL BUYER?

Review this page carefully before following instructions on page two.

#### Are you a PROPERTY OWNER?

You will need the following information to complete this form:

- Copies of any lead-based paint, assessments, or surveys related to the property.
- The latest version of the EPA Protect Your Family From Lead in Your Home pamphlet.
- Knowledge about lead-contaminated dust/soil and condition of the paint on the property.
- Knowledge about any lead-related legal actions taken against the property.

Property owners and managers: keep the signed original of this form on record for at least 6 years from the date of the most recent signature, as you may be audited by the DC Department of Energy and Environment.

#### What to look for inside the property or in the property's common areas:

- Peeling, chipping, chalking, cracking, or damaged paint.
- Lead-based paint on windows, doors, stairs, railings, banisters, porches, or other high-wear surfaces that children might chew.
- Lead that is present in bare soil.
- Lead dust that forms when lead-based paint is scraped, sanded, or heated, or when painted surfaces with lead in them bump or rub together.
- Surfaces with lead paint chips/dust, or settled dust that reenters the air through vacuuming or sweeping.

For more information see The District of Columbia Lead-Hazard Prevention and Elimination Act of 2008, D.C. Official Code § 8-231.01 et seq., and the Federal Lead Warning Statement, 24 CFR Part 35 and 745. Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, lessors must disclose the presence of known lead-based paint and/or lead-based paint hazards in the dwelling. Lessees must also receive a federally approved pamphlet on lead poisoning prevention. http://bit.lv/federallead
